

ORILOK

ORIENTAL METAL WORKS SINCE 1979

LAUNCH RANGE 2026

Set Your Complete Security.

Door and furniture hardware by Oriental Metal Works, Aligarh. Making locks since 1979.

THE BRAND

Locks are what Aligarh does. ORILOK is what we do with them.

Oriental Metal Works has been manufacturing locks and door hardware in Aligarh since 1979. ORILOK is the range we built when the market asked for one brand that covers the whole door and the whole kitchen, finished to the same standard.

Seventeen product lines. Eighteen finishes that match across lines. Every product checked against the same quality gate, and shipped with its own dimension drawing and fitting guide.
